GUIDE

Know your mechanism

Centre tilt
Seat and back tilt together from a pivot under the seat.

Push back
The backrest reclines independently on a spring.

Synchro
Back and seat recline together in a set ratio, keeping feet grounded.

Single / multi lock
Single lock holds the upright position; multi lock holds several recline angles.

Auto weight
Recline tension adjusts itself to the sitter's weight.

Seat slider
Seat slides forward or back to set seat depth.

1D / 3D arms
1D adjusts height only; 3D adds forward-back and pivot.
